CERTIFICATES

Software QA Automation Tester with Python Course
(12/2022 - Present)

EF SET Certificate
(09/2022 - Present)
www.efset.org/cert/hsY8QE

Georgii Paramzin

Backend Python Developer

Creative and reliable. Very fast field learner. Good with people. Love to make people around more effective and happy. And also automate and monitor things. Sometimes it's scary to think about all that I done and achieved in the last year and I can't wait to see whom I became in the next two.
